About Me

IT Specializing in Web Development and Database Administration from Addis Ababa, Ethiopia, dedicated to creating secure, scalable, and user-friendly web solutions. With expertise in both front-end and back-end development, I help businesses and organizations bring their ideas to life through clean code, responsive designs, and optimized databases.

Professional Skills

- Strategy Planning & Implementation
- Creativity
- Collaboration & Team Work
- Detail & Deadline-Oriented
- Critical Thinking
- Leadership

Education

Diploma in Information Technology (Level 5)

Addis Ababa Tegbareid Polytechnic College
Addis Ababa, Ethiopia

2014-2017- EC

Full Stack Developer possessing extensive hands-on experience in the development of responsive, database-driven web applications, acquired through an internship and distinguished academic projects.

Demonstrates proficiency in both Front-End and Back-End development. Successfully delivered solutions that enhanced user engagement by 20% and secured first place in a technology innovation competition for exemplary database design.

Committed to creating secure, scalable, and user-friendly solutions while being eager to contribute technical expertise and grow within a dynamic team environment.

Experience

Data Entry Specialist (Volunteer)

Shager City First Service Center MESOB
Addis Ababa, Ethiopia

Dec 2025 – Present

- Perform accurate and efficient data entry for administrative records, supporting city governance and urban development initiatives.
- Manage and update databases with high attention to detail, ensuring data integrity and compliance with organizational standards.
- Collaborate with team members to process large volumes of information, contributing to streamlined administrative workflows.
- Apply problem-solving skills to identify and resolve data discrepancies in real-time.

Information Technology Intern (Co-operative Training)

Lideta & Piyasa District Bench - Federal
First Instance Ethiopia
Addis Ababa, Ethiopia

2015 – 2016 EC

- Assisted in network configuration and maintenance to ensure reliable connectivity and system stability across court infrastructure.
- Created and maintained Windows user accounts and environments for staff, providing secure access and troubleshooting basic issues.
- Added and updated data on servers in the database department, supporting accurate record-keeping and operational efficiency.
- Contributed to information and technology operations, including assistance with CCTV systems for monitoring and security support.

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, React
- **Backend:** Python, Php, MySQL, SQL, Database Design & Optimization,
- **Tools:** GitHub, VS Code, Canva, Xampp, SQL Server, Microsoft

Projects

• *Filli Coffee Website*

*Developer (Front-End Focus) Addis Ababa
Tegbareid Polytechnic College, Mexico,
Addis Ababa*

1 Month, 2015 EC

HTML, CSS, JavaScript, PHP, MySQL

- Assisted in front-end development using HTML, CSS, and JavaScript to create responsive layouts and interactive elements for the e-commerce website.
- Oversaw error detection and debugging on the front-end, ensuring smooth functionality and cross-browser compatibility.
- Handled documentation of front-end processes, user interaction testing, content creation (text, images, copy), and added animations for enhanced user experience.
- Contributed to overall project success, receiving positive faculty feedback for user-friendly design and engaging interface.

• *Library Management System*

*Full Stack Developer
Addis Ababa Tegbareid Polytechnic
College, Mexico, Addis Ababa*

2 Month, 2017 EC

MySQL, HTML, CSS, JavaScript, PHP, Python

- Collaborated with team to digitize outdated, manual, time-consuming library system by developing a modern web-based platform for efficient book inventory management, student borrowing/returning, and daily operations.
- Designed and implemented relational MySQL backend database to manage student records, enrollment, grading, book transactions, and inventory, integrated with PHP for dynamic, real-time functionality.
- Implemented role-based access control (RBAC) with distinct permissions: Admin (full system control), Librarian (management & reporting), Guest (view-only), and Student (borrowing/returning features).
- Integrated Python scripting for advanced capabilities, including face recognition (face ID) authentication for fast, secure student access to books/services and Excel export for librarians to generate detailed reports and view comprehensive data.
- Optimized database queries for faster data retrieval, designed intuitive user-friendly interfaces for efficient book/data entry and management, and enforced data integrity/security via normalization and access controls.
- Produced comprehensive system documentation covering setup, usage, maintenance, and features to support future updates and user adoption.
- **Awarded 1st place** in technology innovation competition for groundbreaking digitization, face recognition integration, and overall modernization of library processes.

Certificate

Certifications & Learning

- Graphic Design Essentials (Feb 2026) [View](#)
- Certificate of Recognition – 1st Place Awarded to me (Fraol Admasu) for representing the college in the city-level Technology, Skills, Research & Publication Competition (Feb 2026)
- Certificate of Appreciation / Certificate of Recognition – Excellent Results Among All Trainees (Feb 2026)
- Certificate of Technology Innovation and Transformation (Addis Ababa City Government – Labour & Skills Bureau) (Jun 2025)
- Python Programming — Certificate of Achievement Dan Energy Ethiopian Research and Development PLC (Dec 2023)
- Cisco Networking Academy (Computer Hardware Basics) [View](#)
- Cisco Networking Academy (Introduction to Cybersecurity) [View](#)
- Programming Fundamentals Udacity [View](#)
- English Certificate – Albert Institute (EC-2012)
